

***MOVING TOWARDS SUSTAINABILITY- AN INTERACTIVE TRAINING
WORKSHOP FOR FISHERS*** organized during 20-21 April 2013 Fishery
Survey of India, Mumbai (HQ)

Sustainability of resources exploitation is one of the key aspects in Fishery Resources Management. Fishery Survey of India, Mumbai (HQ) organized a two days' workshop on *MOVING TOWARDS SUSTAINABILITY- AN INTERACTIVE TRAINING WORKSHOP FOR FISHERS* during 20-21 April 2013 for the benefit of local fishermen of Mumbai region. Around 25 Fishers from different localities and adjoining region of Mumbai including the officials of State fisheries, Fishermen cooperative association attended the workshop. Shri Dilip S. Garde, Traffic manager, Mumbai Port Trust inaugurated the workshop and appreciated the FSI activities and keen interest shown for conducting awareness programme on sustainability of Fishery resources. Dr K Vijayakumaran, Director General FSI, Mumbai presided over the function. In his presidential address he expressed his concerned on development of fisheries and benefit to fisher folks. He briefed about the importance of workshop and its objectives.

During the workshop, lectures were delivered by the Scientists of FSI on Fishing gear technology,

Eco friendly fishing methods, Code of Conduct for responsible fisheries and sustainability of Resource exploitation. The fishermen were actively participated

and interacted with the scientists on various issues and their doubts were clarified in the technical sessions. Shri Anil Kumar P. Deputy Director, Marine Product Export Development Authority given information on assistance provided by MPEDA to the fishermen. All the

participants were rewarded with the certificates for attending this interactive training workshop.
