

## **Fishery Survey Of India participates in the AGRI VISSION 2023 at Centurion University, Bhubaneswar Odisha**

The Society for Agricultural Research and Management (SARM), Cuttack in association with Centurion University of Technology & Management, Bhubaneswar has been conducting an International Conference on Agricultural and Rural Development (**Agri Vision 2023**) during 27-29 January 2023. Visakhapatnam Base of FSI has participated at the **Agri Vision 2023** and put up an exhibition stall for the benefits of the students, farmers, fishers and general public. During the exhibition fishery charts depicting various fishing methods and fishery resources, models of eco friendly fishing gears and survey vessels were displayed. The concept of Artificial Reefs for the rejuvenation of the fishery resources in the marine environment was also displayed through various artificial reef models. LSA items like magnetic compass, walki talki, Automatic Identification System, Global Positioning System, smoke signals, barometer etc. were displayed during the occasion. The exhibition was inaugurated by Prof. Supriya Pattanayak, the Vice Chancellor of the Centurion university Bhubaneswar. She visited the FSI stall along with other delegates and interacted with the officials. Visitors from all walk of life visited the FSI exhibition stall.
